

Green Vision Recycling

At the Y.A.L.E. School Ellisburg and Northfield campuses

Hands-on experience for students, building independent work skills for future employment

The Y.A.L.E. School has entered into a partnership with Green Vision® a New Jersey-based non-profit offering students, teens and adults with disabilities functional employment training and work skills in a growing area of the technology sector that also benefits our planet and our communities! Students at Y.A.L.E.'s Ellisburg and Northfield campuses will collect, dismantle, sort and recycle electronic devices, including household appliances and office equipment. Not only are they keeping electronic waste out of landfills, they are earning a paycheck and gaining valuable workplace experience. After a six-week training program, students 14 and older can work in other settings, with the option to advance to jobs with increasing responsibilities. As part of the partnership, Y.A.L.E. students will also learn about sustainability and participate in yearlong environmental service-learning projects in the community.

Green Vision® is 99.7% landfill-free. We are thrilled to offer this new program to our students!

We are now accepting donations of:

Computers & Accessories • Printers • Copiers, Scanners, Fax Machines • VCR, DVD, CD, Cassette Players & Radios
Telephones & Cell Phones • Small Kitchen Appliances • Vacuums
TVs and Computer Monitors *

*a small recycling fee of \$10-\$20 per item applies to TVs, computer monitors and hard drives

To donate, please drop items off for recycling at the Y.A.L.E. School Cherry Hill, Ellisburg or Northfield campuses during school hours.
